

Thank You!

You have successfully downloaded your document from Workbenchmagazine.com. Below are some tips for Trouble-Free Printing

- 1)** Clear printer memory. If you are unable to print this document, turn off your printer for at least 15 seconds and try again.

- 2)** Print two or three pages at a time. If clearing the printer memory didn't help, try printing only two or three pages at one time, rather than sending the entire file

- 3)** If a document is required to be at an accurate scale set the page scaling option to "none" in your printer settings.

- 4)** Get advanced printer help. Visit Adobe Support for instructions in troubleshooting common printer problems.

G CLEATS	2	¾" x ¾" x 18"	Cedar
H DECORATIVE CAPS	6	¼" x 1" x 1"	Cedar

HARDWARE:

- ¾" Steel Threaded Rods, 3" long (50 rods per chair; 28 rods per table - either cut to length, or #95475A636 at McMaster.com)
- (28) 3" Stainless Steel Deck Screws
- (2) 2" Stainless Steel Deck Screws
- (90) 1¼" Stainless Steel Deck Screws

CORRECTIONS: In the June 2007 issue of Workbench, the Lower Leg Rails of the outdoor chair were shown as the same part (Part B). In reality, the Rear Lower Leg Rail is 1" longer than the Front Lower Leg Rail. The following Materials List, Cutting Diagram, and Builder's Plans are corrected to reflect this, with the Front Lower Leg Rail listed as Part B, and the Rear Lower Leg Rail listed as Part B2.

In addition, the slats should be 3 7/16" wide, not 3 3/16" wide as published. This change is also reflected in the above material.

CUTTING DIAGRAM

CHAIR

1½" x 5½" x 96" Cedar

1½" x 5½" x 96" Cedar

1½" x 5½" x 96" Cedar

1½" x 5½" x 96" Cedar

1½" x 5½" x 72" Cedar

¾" x 5½" x 96" Cedar

¾" x 3½" x 96" Cedar

***Revised from plan shown in magazine.**

The back lower leg rail is 23" long, not 22".
