Thank You!
You have successfully downloaded your document from Workbenchmagazine.com. Below are some tips for Trouble-Free Printing

1) Clear printer memory. If you are unable to print this document, turn off your printer for at least 15 seconds and try again.

2) Print two or three pages at a time. If clearing the printer memory didn't help, try printing only two or three pages at one time, rather than sending the entire file.

3) If a document is required to be at an accurate scale set the page scaling option to "none" in your printer settings.

STEP ONE:
Assemble front frame with pocket screws and glue.

STEP TWO:
Add back, overlapping pieces, one at a time using glue and a brad nailer. Screws could be used instead of brads.

Bed frame mounting holes are drilled after glue-up.

Glue and brad-nail gridwork together.

3/8" thick, x 3/4" wide, x 17" long vertical strips are installed after horizontals.

3/8" x 1/2" x 57" filler strips fit in rabbet on headboard frame.

3/8" thick, x 3/4" wide, x 57" horizontal strips are installed first.

1/2" rabbet is created by width of front and back frames.

Mounting holes to match bedframe holes.

3/4" hole, 1/8" deep for 1/4" T-nuts.
